Defibrillators Information

Query and Response:

1. Do you have AEDs (defibrillators) in your service?
DWFRS does have AEDs in our service.
2. If yes, where are your AEDs stored? (e.g. in Fire vehicles, inside the stations or outside of the station in a cabinet).
Our AEDs are stored in fire vehicles and inside some fire stations.
3. How many AEDs do you have?
We currently have 97 AEDs.
4. What make & model are the AEDs please?
We currently have Cardiac Science G3 AED's but these are being replaced by the G5 model.
5. How old are the AEDs or what year were they purchased?
Our Oldest AED was purchased in 2013 and newest in 2024.
6. When would you look to replace your AEDs?
Our AEDs are replaced in accordance to manufacturer guidelines.
7. Who in your organisation deals with the maintenance of equipment such as AEDs?
Competent fire crew will check the AED and replace batteries and pads all in accordance to manufacturer guidelines. Maintenance is carried out by the manufacturer.
8. Who is in charge of purchasing equipment such as AEDs?
Our Assets department has responsibility for purchasing AEDs.
9. Where do you purchase AEDs from?
We purchase our AEDs from ZOLL Medical UK Ltd.
